

I am caught in a trap

(,I' = synonym for Jewish dilemma)

They say attack is the best defence

but is that really true?

History teaches us the opposite!

Alexander the Great; Napoleon; Hitler and others.

Putin!

But what does that mean?

if I don't have a home and

I'm not safe anywhere in the world,

Shoah!

Now I have a home, but at what cost?

surrounded by no friends,

I have to become strong to survive!

Now I have the power,

but am surrounded by enemies,

Hammas!

I must have even more power,

in order to be able to threaten my enemies ...

They have now brutally attacked my home,

killed my friends and took them as hostages,

I have the right to defend myself and my home,

I want to destroy my enemy whatever it costs

and will not be able to spare their families,
War crimes. Genocide!

The dignity of all people is inviolable!
remains a pious wish.
Abuse of power!

Who am I today and where do I stand now?
Can I still save my home and myself?

History will tell!
